Call Ingalls Care
Connection at
800-221-2199

To schedule an appointment with a physician or for more information about our services, call Ingalls Care Connection at (800) 221-2199 weekdays from 8:00 a.m. to 4:00 p.m.

Physicians on the Ingalls Medical Staff are "Independent Practitioners" and are not employees or agents of the hospital.

Perry Gilbert, M.D.

Perry Gilbert, M.D., is medical director of radiology for Ingalls Health System. He received his medical degree from Northwestern University Medical School in Chicago. Dr. Gilbert performed his internship at Children's Memorial Hospital and his residency at Northwestern University Medical School, where he served as chief resident. Dr. Gilbert also performed a fellowship in vascular and interventional radiology and cross-sectional imaging at Northwestern. He is certified by the American Board of Radiology, with a certificate of added qualification in vascular and interventional radiology.

Interventional Radiology at Ingalls

Interventional radiologists at Ingalls are board-certified physicians who specialize in minimally invasive, targeted treatments. We combine in-depth knowledge of the least invasive treatments available with diagnostic and clinical experience across all specialties.

As the inventors of angioplasty and the catheter-delivered stent, interventional radiologists pioneered minimally invasive modern medicine. Today, many conditions that once required surgery can be treated non-surgically by interventional radiologists, resulting in less risk, pain and recovery time.
